1. "Single Use License." Licensee may permit a single authorized end user to install and use the Software, Data, and Documentation on a single computer for use by that end user on the computer on which the Software is installed. Remote access is not permitted. Licensee may permit the single authorized end user to make a second copy for end user's exclusive use on a portable computer so long as only one (1) copy of the Software, Data, and Documentation is in use at any one time.
2. "Concurrent Use License." Licensee may install and use the Software, Data, and Documentation on computer(s) on a network, but the number of simultaneous users may not exceed the number of licenses acquired.
3. "Development Server License." Licensee may install and use the Software on a single computer to design and build applications that interface with or utilize server Software as described in the Documentation.

4. "Staging Server License." In addition to the Development Server License Rights, Licensee may use and install the Software for the following purposes: user acceptance testing, performance testing, load testing of other third-party software, staging new commercial data updates, and training activities.

5. "Deployment Server License." In addition to the Staging Server License Rights, Licensee may install and use the Software or Data to provide services to multiple users on the same or other computer(s).

6. "Term License." Licensee may use the subscription(s), Software, Web Services, and Data for a limited time period or while Licensee has available credits or transactions to use the subscription(s), Software, Web Services, and Data as described in the Documentation. When the license term, subscription, credits, or transactions expire, Licensee must either stop using the subscription(s), Software, Web Services, and Data, or renew or extend the license upon payment of applicable fees.

7. Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs.

8. The administration tools for the Software may be copied and redistributed throughout Licensee's organization.

9. User-developed ArcGIS Server administration tools may be copied throughout Licensee's organization, but the ArcCatalog application (found in ArcGIS Desktop) may not be copied.

10. The ArcIMS license includes the right to deploy MapObjects—Windows Edition applications on the Internet or intranet. Licensee shall not develop client/server solutions with the ArcIMS Java Archive (JAR) files without a license for the MapObjects—Java Edition Developer Kit.

11. ESRI and its licensor(s) grant Licensee a nonexclusive, nontransferable, limited license to use, copy, and prepare derivative works by

    a. Translating "alroute.mld" (hereinafter "Dictionary") from the original text in the English language; and
    b. Editing Tele Atlas (TA) Data included within ArcLogistics Route.

    The license grant is conditioned as follows:

    a. The derivative works are for Licensee's internal use only;
    b. ESRI and its licensor(s) retain all exclusive right, title, and interest in and to benefits from the derivative works; and
    c. Licensee expressly waives and relinquishes any and all ownership including, but not limited to, copyright, moral rights, or any other statutory or common law claims to the derivative works.

    Licensee shall not translate, modify, or edit in any way the software name "ArcLogistics Route," any software logo, any third-party software, any text other than the Dictionary, or any Data other than TA Data. The amount of Data used by Licensee is limited by Data credits purchased. Additional license fees are required if ArcLogistics Route with Data is to be accessed by more than one (1) ArcLogistics Route licensee.

12. ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.

13. "Dual Use License" means the Software may be installed on a desktop computer and may be used simultaneously with either a personal digital assistant (PDA) or handheld mobile computer so long as the Software is only used by a single individual at any one (1) time.

14. Developers must include the following attribution with any deployed MapObjects application: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–2002 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."

15. Deployment licenses for desktop or Internet application(s) may be subject to payment of additional license fees.

16. Licensee may deliver applications to its sublicensee(s) provided Licensee uses a written sublicense agreement that protects ESRI's rights in its Software, Data, Web Services, and Documentation to the same extent as the ESRI License Agreement including, but not limited to, the following terms:

    a. Sublicensee may not reverse engineer, decompile, or disassemble the ESRI Software, Data, Web Services, or Documentation, except to the extent permitted by applicable law; copy for commercial use; transfer; or assign its rights under the license grant;
    b. Sublicensee may not use any ESRI Software, Data, Web Services, or Documentation, in whole or in part, separate from Licensee's executable application; and
    c. Third-party dependent or required components are redistributable subject to permission from the owner or author.

17. Licensee may use Business Objects Crystal Reports software only with the ArcGIS Desktop Software with which it was acquired and subject to the Crystal Reports Professional License Agreement available on the media. However, for use of Crystal Reports software with Concurrent Use licenses, Licensee may install and use a Crystal Reports license on any

computer on the network on which the ArcGIS Desktop Concurrent Use Software is used. However, it may only be used with the ESRI Software with which it was acquired. Licensee may not use a software program or system to cache or queue report requests.

18. The Deployment license is per application per computer.

19. The MapObjects—Java Edition contains Java Archive files, which indicate they are authentic ESRI-certificated files when used over the Internet. Licensee shall not use ESRI certification or reference ESRI as a source of trusted content in any modified MapObjects Java Archive files. Licensee may deploy the unmodified Java class ESRI certified libraries as an integral part of the Licensee's application(s).

20. Licensee may reproduce and deploy the Software provided all of the following occur: (a) The Software is reproduced and deployed in its entirety; (b) a license agreement accompanies each copy of the Software that protects the Software to the same extent as the ESRI License Agreement, and the recipient agrees to be bound by the terms and conditions of the license agreement; (c) all copyright and trademark attributions/notices are reproduced; and (d) there is no charge or fee attributable to the use of the Software.

21. Licensee shall not withhold any substantial right (e.g., extension of credit) from any individual based solely on the individual's place of residence, as profiled in the Community Tapestry market segmentation system.

22. (a) ArcGIS Engine Runtime licenses shall not be used for Internet and Server development and deployment. (b) An end user must license either ArcGIS Engine Runtime Software or other ArcGIS Desktop Software (ArcView, ArcEditor, or ArcInfo) to obtain the right to run an ArcGIS Engine application on one (1) computer. (c) The ArcGIS Engine Runtime extensions shall not be used in combination with ArcGIS Desktop Software to run ArcGIS Engine applications. A single user can have multiple applications installed on one (1) computer for use only by that end user.

23. Licensee may redistribute the Data as described in the Redistribution Rights Matrix available at http://www.esri.com/legal/, in the Help system, or in supporting metadata files.

24. EDN Software, Web Services, and Data may only be used by one (1) named developer per subscription solely for the purposes of research, development, testing, and demonstration of a prototype application. EDN Software and Data may be installed on multiple computers for use by any named EDN developer.

25. Use of any third-party owned data that is included in ArcGIS Services or ArcWeb Services shall be subject to the Use of Data Restrictions found at http://www.esri.com/legal/, which may be modified by ESRI from time to time. If a modification is unacceptable to Licensee, Licensee may cancel the subscription upon written notice to ESRI. If Licensee continues to use the Web Services, Licensee will be deemed to have accepted the modification.

26. ArcSDE Personal is restricted to four (4) gigabytes of data.

27. ArcGIS Server Web ADF Runtime Software may not be deployed independent of Licensee's ArcGIS Server Enterprise configuration.

28. Limited to ten (10) concurrent end users of non ArcGIS Server applications. This restriction includes use of ArcGIS Desktop Products, ArcGIS Engine Products, and third party applications that connect directly to any ArcGIS Server geodatabase.

29. Can only be used with SQL Server 2005 Express.

30. Restricted to a maximum total of four (4) gigabytes of data.

31. Redundant Software installation(s) for failover operations may be implemented during the period the primary site is nonoperational. The redundant Software installation(s) shall remain dormant except for system maintenance and updating of databases while the primary site or any other redundant site is operational.

32. No redundant Software installation is permitted.

33. ArcGIS Services may only be utilized in conjunction with ArcGIS Desktop Software and ArcGIS Explorer Software.

34. Licensee's organization is limited to the number of specified credits, transactions, geography, or number of users as described in the online product description.

35. Licensed end users shall not share client-side data cache derived from ArcGIS Services with other licensed end users or third parties.

36. Licensee may not download or store resulting data or information except for results derived from using ArcWeb Services Address Manager.

37. Data provided with StreetMap may be used for mapping, geocoding, and routing purposes but is not licensed for dynamic routing purposes. For instance, StreetMap may not be used to alert a user about upcoming maneuvers (such as warning of an upcoming turn) or calculating an alternate route if a turn is missed.

38. ArcGIS Server 3 D extension included with ArcGIS Server (Workgroup or Enterprise) Standard and Advanced may only be used for generating globe data cache(s), or publishing a globe document as an ArcGIS Globe Service. No other use of the ArcGIS Server 3D Extension Software is permitted with ArcGIS Server Standard. ArcGIS Server 3D Extension can be used with ArcGIS Server Advanced if the additional license fees for the 3D extension have been paid.

39. Any editing functionality included with ArcGIS Server (Workgroup or Enterprise) is permitted for use only with ArcGIS Server Advanced.

40. Geospatial Enterprise JavaBeans (EJB) provided with ArcGIS Server (Workgroup or Enterprise) are permitted for use only with ArcGIS Server Advanced.

41. ArcGIS Image Server Seamline and Orthorectification extensions, included with ArcGIS Image Server, can only be used with ArcGIS Image Server if the additional license fees for the extensions have been paid.

42. ArcGIS Image Server License includes the right to one desktop deployment of the ArcGIS Image Server Service Editor for every two socket ArcGIS Image Server License. This includes the right to use the ArcGIS Image Server Seamline and Orthorectification extensions (if also licensed for ArcGIS Image Server) with the desktop deployment of Service Editor. Additional Service Editor desktop deployments can be licensed for an additional fee. The Seamline and Orthorectification extension must also be licensed separately for an additional fee for each additional Service Editor desktop deployment.

General Information and Disclaimers

1. The following Software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.

2. The listed prices are exclusive of shipping, handling, and any applicable taxes. Shipping and handling will be prepaid and charged back, i.e., included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your ESRI Sales Representative can provide a specific quote including applicable shipping and handling charges.

3. Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:

    (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
    (b) Some products have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, Software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the Software, and extension Software is only functional in combination with the corresponding core Software. If you have questions regarding your configuration, please contact your ESRI representative for additional information.
    (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.
    (d) Some items are not offered to all potential customers. For example, certain Software upgrades are only offered to customers who have acquired the most recent versions of the Software, and local government licenses are only offered to local government customers.
    (e) Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-Site training information at ESRI's Web site (www.esri.com/training/site_training.html) for details.
    (f) ESRI Site Training (i.e., Training at one of ESRI's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at ESRI's Web site (www.esri.com/training/register.html) for details.

4. Support services are defined at ESRI's Web site (www.esri.com) within the user support section. Particular attention should be paid to the fact that some ESRI Software comes with complimentary maintenance for the first year and other Software features different support plans.

5. New Software releases for most Software products are provided exclusively through maintenance programs. In these cases, Software upgrades are not sold separately.
